## OUR BOYS IN BLUE ...!

These were the 'Halcyon Days' of Aviation when we had an Airforce with lots of planes - this was a fly-past of 45 Gloster Javelins in 1958 at the Farnborough Air Show - Magnificent. Where are the pilots of these machines 47 years on. They all, must be in their 70's like the Editor of the 'Bugle News'. The Editor is currently sifting through his personal archives of historical events during his wonderful life time when he was a 'Boy Soldier' repelling the Nips from his motherland (like packing his suitcase and preparing to scarp to the hills) to save his neck from a Samurai Sword.

## OVERHEARD AT THE BAR ...

Pixie and Dixie report that a certain member of the Pilots Pen Club remarked that the new barmaid 'doesn't look like a barmaid. He said 'you can normally tell, because they look tarty' ...! *It would make my wife's knickers look like a thong on some women I know..!* The new barmaid said she would be pleased to wear the latest proposed uniform for bar staff as published in the July issue of the Bugle, but the perpetrator of the tart remark must wear a leather thong to be served by me .....!

## CAUTION HELICOPTERS

Whilst airfield security looks quite impressive and somewhat annoying the antics of joy riding helicopters needs to be viewed with serious concern for peoples safety. Some of their manoeuvres in close proximity to the club house is not only annoying but down right dangerous and is not within the ethics of good airmanship and the people who have to put up with their intolerable hovering which is deafening to say the least and down right irritating. *One day!*

## F1 AND 'ROAST BEEF'

Another successful pre - race dinner was served for the start of the British Grand Prix at Silverstone with Red Wine for dedicated supporters.

The Editor filling his plate before viewing the British Grand Prix. Another great meal prepared in our multiple kitchens nearby

**DENMARK:** A patient broke wind while having surgery and set fire to his genitals. The 30 year old man was having a mole removed from his bottom with an electric knife when his attack of flatulence was ignited by a spark. His genitals, which were soaked in surgical spirits, caught fire. The man, who is suing the hospital, said: When I woke up, my penis and scrotum were burning like hell. Besides the pain, I can't have sex with my wife. Surgeons at the hospital in Kjellerups said: 'it was an unfortunate accident'..... ! Editor's comment - this unfortunate accident as they say could have burnt the hospital to the ground. The 'Bugle' advises not to smoke whilst making love, or splashing expensive aftershave on your scrotum - *wow!*
